EDUCATION

SOFTWARE DEVELOPMENT

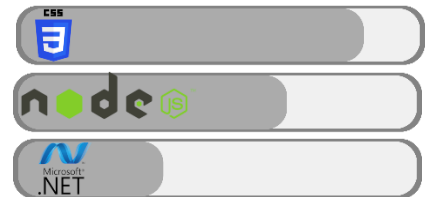

Expected Graduation: 2019
Western Governors University(Online)
Salt Lake City, Utah

BACHELOR OF SCIENCE DEGREE IN FILM

Graduated 2010
Full Sail University
Winter Park, Florida

A college graduate, originally pursuing film with an emphasis on lighting and set design, later realized that my true passion and interest was software development. I am driven and focused, actively working in the field of Informational Technology and Website Development. I have a strong desire to work along-side a team of like-minded individuals and expand my programming and software development skill set. My current area of focus is user interface design, though I hope to broaden my scope with emerging technology to further the way we interface with our devices.

SKILLS AND PROFICIENCIES

PROJECTS

WEB DEVELOPER - [HTTP://WWW.CPR-N-MORE.COM/](http://www.cpr-n-more.com/)

- Originally designed and created with WordPress, and later refined with the use of HTML5 and CSS3
- Integrated an interactive calendar using JavaScript which dynamically changes based on the training course selection, Built a company store
- Website utilizes PayPal with user friendly functionality for course payment

PROGRAMER - ONMAX

- OnMax was developed to solve the slow on-boarding process of new employees by automating the import, export and formatting of data
 - Developed an interactive GUI within Excel to allow for quicker importation, manipulation and exportation of critical data utilizing Visual Basic
 - Engineered modules to provide an end user with a means to elect how they export and format the data
-

ADDITIONAL WORK EXPERIENCE

TECHNICAL SUPPORT COORDINATOR - ENTERPRISE

- Support remote agents with hardware and software malfunctions
- Worked closely with the on-boarding department to design and develop software to improve workflow for managing new hire information
- Authored new training material to help expand team knowledge and maximize first call resolution

TECHNICAL SPECIALIST – APPLE

- Assisted customers with Apple device questions and technical assistance
- Engaged in new product launches which required developing new knowledge and techniques to support previously unknown platforms
- Aided in the grand opening of the new West County Apple Store
